

More capacity and efficiency: **Lexa**

Sterilization on a **high standard**

Built to offer more of all that counts in every day medical infection control.

- Increased efficiency due to the large chamber capacity and short cycle times, including excellent load drying.
- Increased flexibility due to the userfriendly tray and exclusive rack design.
- Increased usability due to the simple and intuitive menu interface, high-end color touch screen and ergonomic design.
- Increased protection due to a complete and customizable traceability system.

Your sterilization process deserves Lexa!

- Dynamic pulsed air removal
- Closed-door vacuum-assisted drying
- Single-use distilled water management
- Automated digital cycle data recording

More capacity

and efficiency

Lexa offers versatile cycle program options for medium and larger loads, guaranteed by the closed-door drying process with HEPA filters and the use of fresh water for each cycle.

Fastest cycles depending on

depending on the load

Flexibility

in cycle selection

Ease of use

thanks to smart interface and user-friendly menu structure

Extended connectivity

Thanks to Ethernet port (LAN) or Wi-Fi kit (optional). W&H Steri Med App to control up to 4 sterilizers

Automatic water filling (optional)

and draining for time saving and ease of use

User authentication and load release option (optional)

for a complete and customized traceability system

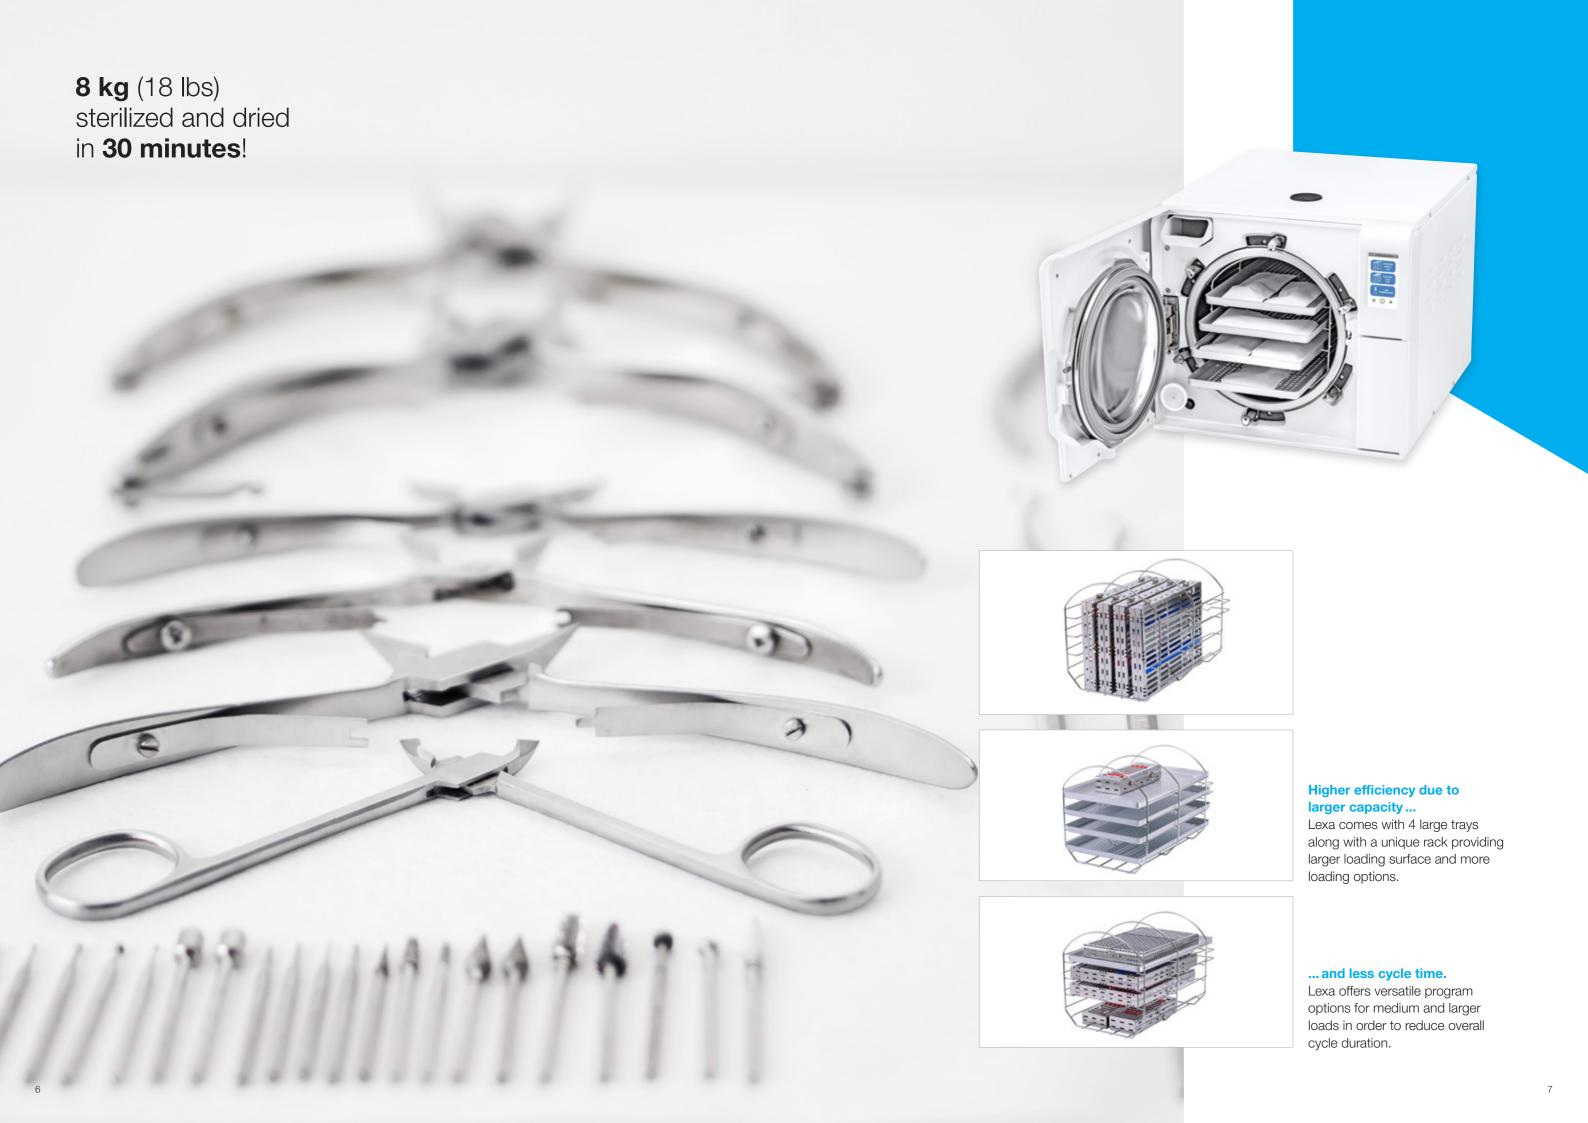

Built-in USB data logger

for the digital cycle documentation

Barcode label printer (optional)

for the extension of the documentation system by making the link "load – cycle – patient"

Technical data | Your advantages at a glance

- User-friendly interface and high-end color touchscreen for simple navigation to control all sterilization options
- Customizable drying time
- Large capacity sterilizer chamber with unique rack and exclusive design
- Versatile sterilization program options with short cycle times
- Superior vacuumassisted drying
- Meets stringent **hygiene** standards, including dynamic pulsed air removal, closed door drying and single-use water management
- **Easy maintenance** Lexa does not require periodic execution of cleaning cycles

- Programmable cycle start
- **Excellent value** for money
- **Automatic water filling** (optional) and draining
- Automatic digital cycle recording on USB stick
- User authentication and load release (optional)
- Barcode label printing (optional)
- **Ethernet port (LAN)**

Lexa sterilization programs

| Sterilization cycle: | Unwrapped | Wrapped Medium Load | Wrapped Large Load | Wrapped X-LargeLoad | Low Temperature |
|---|--------------------|------------------------|-----------------------|------------------------|--|
| Temperature: | 132°C (270°F) | 132°C (270°F) | 132°C (270°F) | 132°C (270°F) | 121°C (250°F) |
| Holding time (minutes): | 4' | 4' | 4' | 4' | 30' |
| Total cycle duration (minutes) including drying*: | 26'-39' | 43'-53' | 48'-58' | 58'-71' | 73'-79' |
| Max. load (excluding trays): | 8.1 kg (18 lbs) | 1.4 kg (3 lbs) | 2.7 kg (6 lbs) | 6.4 kg (14 lbs) | 2.3 & 2 kg (5 & 4.4 lbs) including trays |

Item supplied with reversible rack, 4 aluminium trays, drain tube, tray holder, USB drive, door opening tool, factory test

^{*} Cycle times are approximate and may vary depending on voltage and instrument loads.

| | Meets the requirements of ASME Boiler and Pressure Vessel Code Output Sequence Ou | | | | |
|--------------------------------|--|---|--|--|--|
| | LEXA 110 V | LEXA 220 V | | | |
| Type: | MN-111 | | | | |
| Chamber size: | 28 I (7.4 gal) | | | | |
| Power supply: | 100-125 V AC; 50/60 Hz; 12 A Single Phase | Single Phase 200–240 V AC; 50/60 Hz 10 A Single Phase | | | |
| Overall dimension (w x h x d): | 490 x 452 x 616 mm (19.3" x 17.8" x 24.3") | | | | |
| Weight (empty): | 48 kg (105.8 lbs) | | | | |
| Main/Used water tanks: | 6.4/6.7 I (1.7/1.8 gal) | | | | |
| Connection types: | 2 USB ports, 1 Ethernet port (optional) | | | | |

| Lexa sterilizers were designed, certified and validated according to the following standards and directives: | | | | | | |
|--|---|-----------------|---|--|--|--|
| 93/42/EEC | Medical Device Directive | IEC 61326-1 | Electromagnetic compatibility | | | |
| EN 13060 | Small steam sterilizers | IEC 61010-1 | Safety requirements | | | |
| ASME* | Boiler and pressure vessel code | IEC 61010-2-040 | Specific requirements for steam sterilizers | | | |
| ANSI/AAMI ST55 | Table-top steam sterilizers | IEC 61770 | Back syphonage | | | |
| | | 2012/19/EU | Waste Electrical and Electronic Equipment (WEEE) | | | |
| CSA C22.2 No. 61010-1-12 | Safety requirements for electrical equipment for measurement, control and laboratory use, general requirements. | UL 61010-1 | Safety requirements for electrical equipment for measurement, control and laboratory use, general requirements. | | | |
| The sterilizer can be validated according to EN ISO 17665-1 | | | | | | |
